What past participants have said:

"Phyllis Rosen's career coaching group teaches practical, applicable skills that coaches are unlikely to learn in coaching training programs. With career issues being the entry point for so many clients, having these skills is essential in the marketplace. Phyllis's group is an excellent learning experience and a friendly, lively, and engaging outlet for coaches to serve as a resource for each other. You may come to the group for the learning, but you'll stay because of Phyllis's masterful way of creating an inspiring and supportive group experience." Raymond Rigoglioso, ACC

"So many presentations are fluff and no substance. ... there was practical substance and a good amount of it. You seem to know a lot." Tom C., Leadership Coach

"Love your energy, passion and enthusiasm; thank you!" Peter Vincent, VP HR, Time Inc., Leadership Coach
